- Sriracha Chonburi Thailand

ABOUT ME

I am a computer engineering student with a keen interest in technology. I currently have basic programming skills and am constantly learning and improving myself, and am eager to learn new things.

EDUCATION

Kasetsart University Sriracha campus

Bachelor of Engineering in Computer and Information Engineering
2022- Present | GPAX 3.18

Piboonbumpen Demonstration School, Burapha University

2016 - 2021

SKILLS

TECH SKILLS

- Programming Languages**
python, java, c, c++
- tool & framework**
Git, Figma, VS Code, Arduino, React
- Database**
MySQL, Firebase

SOFT SKILLS

- Critical Thinking
- Creativity
- Adaptability
- Communication

PROJECTS & EXPERIENCE

India internships

- Students are undertaking summer internships to gain experience before participating in cooperative education at Vishwakarma University, India from Kasetsart university
- Research and do projects about Development of Image Restoration Tool with manage machine learning model

Application Vehicle Rent

- This project is to create an application that can rent a vehicles and vehicles rental
- within the app. The work will start from teamwork, thinking of business logic to design the application, and programming.

Tree care system (IOT,Embeded,Network)

- Project about creating an intelligent tree planting and care system
- Uses a pie as a server and has camera sensors and soil mineral sensors to predict plant leaf diseases and treat them accordingly. There is a dashboard to display the results.

Cancer classification

- This project is about analyzing data on characteristics of cancer cell types and performing visualizations. Then, machine learning is used to predict cancer types from the input.

ACTIVITY

NSO DATA CAMP

- Camp Project to promote knowledge and skills in the use of statistical data ,July 2025

Promote knowledge for competition Cybersecurity

- Training in cyber defense skills and knowledge of cyber vulnerabilities and threats ,Sep 2023

Engineering Sports Relations

- supervisor of the stand cheer maintenance design department. ,Nov 2023 - Dec 2023
